## 1.0 INTRODUCTION

These instructions cover the installation of Dart Replacement Head Rest Kits for the Bell 205/212/412 series aircraft. These kits can be procured to replace the existing head rests on the "4 man" aft facing seats as shown in Figure 1.

The D412-724-011 Replacement Head Rest Kit consists of (2) D412-724-041 Head Rest Assembly (replaces 205-072-701-101/-001/-005/-009/-019/-013/-105), (1) D412-724-043 Head Rest Assembly, LH (replaces 205-072-701-103/-003/-007/-011/-021/-015/-107) and (1) D412-724-044 Head Rest Assembly, RH (replaces 205-072-701-104/-004/-008/-012/-022/-016/-108).

It is acceptable to install the Head Rest Assemblies as an entire -011 kit or on an individual basis. Furthermore, D3304-041 replaces 205-072-702-101/-001, D3304-043 replaces 205-072-702-103/-003, D3304-044 replaces 205-072-702-104/-004, and D3303-041 replaces 204-070-723-101/-019.

The components in the Dart kits are as defined in the table in Section 5.0 of these instructions. For convenience, only the last three digits of the Part No. are listed on the top row of each table. The quantity of each component, which is included in the D412-724-011 Head Rest Kit, for example, is as defined in the column labeled -011.

## 2.0 GENERAL NOTES

### COMPATIBILITY

Compatibility of this installation with the aircraft is the **responsibility of the installer**. Ensure that this installation does not conflict with a previous modification.

### CONTINUING AIRWORTHINESS

These installations should be maintained in accordance with the Instructions for Continued Airworthiness ICA-D412-724.

### 3.0 INSTALLATION PROCEDURE

#### To install a Dart Head Rest Assembly:

- 3.1 If installed, remove the existing Head Rest Assembly by pulling the quick release pin that attaches it to the seat. Make note of the installation position (if applicable).
- 3.2 Inspect the seat for damage in the vicinity of the Head Rest Assembly. Consult the Aircraft Maintenance Manual for disposition if damage is observed.
- 3.3 If only replacing the Head Rest with the equivalent Dart D3303-041 Head Rest, separate the existing Head Rest from the existing Tube Assembly by undoing 4 screws. Re-assemble D3303-041 Head Rest with existing Tube Assembly by installing 4 screws and tightening to 15-25 in lb.
- 3.4 If only replacing the Tube Assembly with a Dart D3304-041/-043/-044 Tube Assembly, separate the existing Head Rest from the existing Tube Assembly by undoing 4 screws. Re-assemble existing Head Rest with Dart D3304-041/-043/-044 Tube Assembly by installing 4 screws and tightening to 15-25 in lb.
- 3.5 Slide the new or modified Head Rest Assembly into the seat tube and lock in place at the same location that the old Head Rest Assembly was installed (if applicable) using the quick release pin. Ensure pin is properly engaged.

### 4.0 WEIGHT AND BALANCE

There is negligible weight change associated with the installation of the Dart Head Rests.

### 5.0 PARTS LIST

QTY -011	QTY -041	QTY -043	QTY -044	Part Number	Description
